Rhode Scholar (22 IBU 4.6%ABV)

This addition to our lineup fills the need for a lighter bodied, easy-drinking beer. The Rhode Scholar is a smart beer that is both approachable and complex. Each sip of this kolsch style beer illuminates your palate with subtle citrus flavor and light peppery notes on the finish. The Scholar can be enjoyed while mowing the lawn, just chatting with friends or when impressing your Alma Mater.

Pawtucket Pail Ale (48 IBU 6.2%ABV)

While the trend is to go to extreme levels of hoppiness, we at Bucket think a great beer should be more than just its IBUs. We start the recipe with a variety of malts designed to deliver a toasty, nutty flavor and a satisfying consistency. We then add our hops in our own unique way to deliver more of the full flavor and aromatic profiles of the hops without extreme bitterness. The result is a bucket of floral aromas and notes of tangerine.

Thirteenth Original Maple Stout (38 IBU 6.4%ABV)

Early in our home-brewing careers, in an attempt to revive a stout that we thought wasn't fermenting, we dumped in a cup of maple syrup. A few weeks later we tried the creation with trepidation... and it was fantastic! Years have passed and we've grown to become much better brewers, and this stout has grown better with us. Mixing a complex malt base, a healthy dose of maple syrup and an unusual blend of hops, this beer, just like our state, is truly an original.

Park Loop Porter (34 IBU 6.8%ABV)

We designed this beer for runners competing in a race in Warwick City Park, but we liked it so much it became part of our lineup. This robust porter stays true to its British roots with grains and hops chosen to keep with old brewing traditions. Each taste delivers a complex blend of subtle coffee and almond notes with a rich toasty flavor throughout. This beer was a winner and we feel confident that you'll be won over too.
